PROJET SCIENTIFIQUE

Henry BIGGS

Scientific Activities of Henry BIGGS

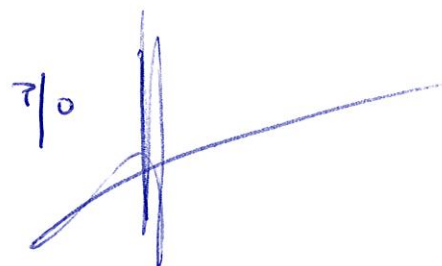

Henry BIGGS is formally being asked to participate in the scientific activities of LEJEP and the School of Law because of his specializations relating to International Intellectual Property, Information Technology, and national security from an international law perspective. In addition, he will be asked to share knowledge and experience based on his ability to coordinate international initiatives of colleges, graduate professional schools, human resources, alumni and development and other university departments in a centralized global database, as well as develop processes to streamline and automate information porting. He has been invited in October 2014.
